

## Nano Labs Announces Second Half of 2025 Financial Results

Mar 30, 2026 at 8:00 AM EDT

HANGZHOU, China, March 30, 2026 (GLOBE NEWSWIRE) -- Nano Labs Ltd (Nasdaq: NA) ("we," the "Company" or "Nano Labs"), a leading Web 3.0 infrastructure and product solution provider and crypto treasury company today announced its unaudited financial results as of December 31, 2025 and for the six months ended December 31, 2025.

### Second Half of 2025 Financial Summary

- Net revenue increased by 18.1% to RMB18.7 million (US\$2.7 million) for the second half of 2025, from RMB15.9 million in the same period of 2024.
- Gross loss was RMB29.1 million (US\$4.1 million) for the second half of 2025, compared to a gross profit of RMB11.6 million in the same period of 2024.
- Gain on change in fair value of cryptocurrencies was RMB130.0 million (US\$18.5 million) for the second half of 2025, compared to a loss of RMB15.7 million in the same period of 2024.
- Profit from operations was RMB60.8 million (US\$8.7 million) for the second half of 2025, compared to a loss of RMB55.6 million in the same period of 2024.
- Net income was RMB137.7 million (US\$19.6 million) for the second half of 2025, compared to a net loss of RMB 60.4 million in the same period of 2024.
- Net income per share (both basic and diluted) was approximately RMB6.2 (US\$0.9) for the second half of 2025, compared to a net loss per share (both basic and diluted) of approximately RMB6.0 in the same period of 2024.

Mr. Jianping Kong, Chairman and Chief Executive Officer of the Company, commented: "2025 witnessed vigorous development in the Web 3.0 industry. With the continuous improvement of the global crypto market environment, including the enhancement of crypto asset infrastructure and rising market participation, the crypto market and Web 3.0-related sectors embraced a new phase of growth and opportunities.

Following a comprehensive and meticulous internal assessment of BNB's strategic value and long-term prospects, we decided to take the lead in launching and continuously advancing the buildout of a BNB reserve. As of December 31, 2025, we held a total of 126,662 BNBs and a receivable for 3,338 BNBs collateral. By steadily increasing the BNB holdings, we have not only optimized our crypto asset allocation but also created favorable conditions for future business expansion and ecological collaboration.

In terms of capital operations, we successfully completed two rounds of financing in 2025, which provided strong support for the Company's strategic transformation, the expansion of our crypto asset reserves, and the exploration of new business directions.

In March 2026, we officially launched our new-generation product — iPollo ClawPC A1 Mini, designed to support the Open Claw AI Agent system. Subsequently, we plan to introduce the Claw OS system and more hardware products to further extend the full-chain ecological services for AI Agents.

Meanwhile, to further enhance shareholder value and demonstrate the management's confidence in the Company's long-term development, we announced a share repurchase program of up to US\$25.0 million in October 2025. This program has commenced and is expected to be implemented steadily over the long term.

Looking ahead, we will continue to closely monitor emerging industry trends and market dynamics. While maintaining stable operations, we will further advance our crypto asset strategic reserve and pursue broader industrial opportunities in the AI Agent ecosystem."

Mr. Bing Chen, Chief Financial Officer of the Company, added: "For the second half of 2025, our net revenue increased by 18.1% from RMB15.9 million to RMB18.7 million (US\$2.7 million). In addition, we successfully turned to a net income of RMB137.7 million (US\$19.6 million) for the six months ended December 31, 2025, compared to a net loss of RMB60.4 million in the same period of 2024. Adhering to the principles of long-termism and prudent decision-making, our management will continue to monitor and capture emerging opportunities arising in the transformation from Web 3.0 to Web 4.0, with the goal of creating sustainable long-term value for the Company and all shareholders."

### Second Half of 2025 Financial Results

#### Net Revenues

Net revenue was RMB18.7 million (US\$2.7 million) for the second half of 2025, compared to RMB15.9 million for the same period of 2024. The increase was primarily due to the increase in sales volume of iPollo V Series.

#### Cost of Revenues

Cost of revenues was RMB47.8 million (US\$6.8 million) for the second half of 2025, compared to RMB4.3 million for the same period of 2024. The change was mainly due to the write-downs of inventories and value-added tax recoverable.

### ***Operating Income (Expenses)***

Total operating income increased by 233.9% to RMB89.9 million (US\$12.8 million) for the second half of 2025, compared to a total operating expenses of RMB67.1 million for the same period of 2024.

- Selling and marketing expenses decreased by 56.2% to RMB2.1 million (US\$0.3 million) for the second half of 2025, from RMB4.8 million for the same period of 2024. The decrease in selling and marketing expenses was primarily due to the decrease in employee salary expenses.
- General and administrative expenses increased by 30.3% to RMB33.1 million (US\$4.7 million) for the second half of 2025, from RMB25.4 million for the same period of 2024. The increase in general and administrative expenses was primarily due to the increase in professional services fees.
- Research and development expenses decreased by 76.9% to RMB4.9 million (US\$0.7 million) for the second half of 2025, from RMB21.2 million for the same period of 2024. The decrease in research and development expenses was primarily due to the decrease in salary expenses, material fees, and equipment fees.
- Change in fair value of cryptocurrencies was a gain of RMB130.0 million (US\$18.5 million) for the second half of 2025, compared to a loss of RMB15.7 million for the same period of 2024. The increase in gain from change in fair value of cryptocurrencies was primarily due to the increased BNB price during the second half of 2025.

### ***Profit (Loss) from Operations***

Profit from operations was RMB60.8 million (US\$8.7 million) for the second half of 2025, compared to loss from operations of RMB55.6 million for the same period of 2024.

### ***Finance Expenses***

Finance expenses was RMB0.3 million (US\$0.05 million) for the second half of 2025, compared to RMB2.0 million for the same period of 2024.

### ***Interest Expenses***

Interest expenses was RMB11.7 million (US\$1.7 million) for the second half of 2025, compared to RMB4.9 million for the same period of 2024. The change was due to the interest paid for the borrowings denominated in Bitcoin during the second half of 2025.

### ***Change in Fair Value of Borrowings Denominated in Cryptocurrencies***

Change in fair value of borrowings denominated in cryptocurrencies was a gain of RMB60.5 million (US\$8.6 million) for the second half of 2025, compared to nil for the same period of 2024. The change was due to the borrowings denominated in Bitcoin in 2025, which was measured at fair value and repaid before December 31, 2025.

### ***Other Income***

Other income was RMB38.2 million (US\$5.4 million) for the second half of 2025, compared to RMB1.7 million for the same period of 2024. The change was due to the Binance Launchpool and Airdrop income for BNB holders and income from crypto investment products.

### ***Other Expenses***

Other expenses was RMB9.9 million (US\$1.4 million) for the second half of 2025, compared to nil for the same period of 2024. The change was due to the loss from change in fair value of short-term investments during the second half of 2025.

### ***Net Income (Loss)***

Net income was RMB137.7 million (US\$19.6 million) for the second half of 2025, compared to a net loss of RMB60.4 million in the same period of 2024.

### ***Basic and Diluted Earnings or Loss Per Ordinary Share attributable to Nano Labs Ltd***

Basic and diluted earnings per share was approximately RMB6.2 (US\$0.9) for the second half of 2025, compared to basic and diluted loss per share of approximately RMB6.0 for the same period of 2024.

### ***Cash and Cash Equivalents***

As of December 31, 2025, the Company had cash and cash equivalents of RMB8.5 million (US\$1.2 million), compared to RMB32.4 million as of December 31, 2024.

### ***Exchange Rate***

This press release contains translations of certain Renminbi (RMB) amounts into U.S. dollars (US\$) solely for the convenience of the reader. Unless otherwise specified, all translations of Renminbi amounts into U.S. dollar amounts in this press release are made at RMB7.0288 to US\$1.00, the central parity rate on December 31, 2025 published by the People's Bank of China.

### ***Non-GAAP Financial Measures***

In evaluating our business, we consider and use adjusted net income/(loss) as an additional non-GAAP measure to review and assess our operating performance. The presentation of the non-GAAP financial measure is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. We define adjusted net income/(loss) as net income/(loss) excluding share-based

compensation expense.

We present the non-GAAP financial measure because they are used by our management to evaluate our operating performance and formulate business plans. Non-GAAP financial measures enable our management to assess our operating results without considering the impact of non-cash charges and non-operating items. We also believe that the use of the non-GAAP measure facilitates investors' assessment of our operating performance.

The non-GAAP financial measure is not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. The non-GAAP financial measure has limitations as analytical tools. One of the key limitations of using the non-GAAP financial measure is that they do not reflect all items of income and expense that affect our operations. Share-based compensation expenses have been and may continue to be incurred in our business and are not reflected in the presentation of adjusted net income/(loss). Further, the non-GAAP measure may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited.
