Dear Mr. Kong:

We have reviewed your registration statement and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter by amending your registration statement and providing the requested information. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing any amendment to your registration statement and the information you provide in response to these comments, we may have additional comments.

Registration Statement on Form F-1 filed June 10, 2022

General

1. If your operations have experienced or are experiencing inflationary pressures or rising costs, please expand to identify the principal factors contributing to the inflationary pressures the company has experienced and clarify the resulting impact to the company. Please also revise to identify actions planned or taken, if any, to mitigate inflationary pressures.
2. Please disclose whether and how your business segments, products, lines of service, projects, or operations are materially impacted by supply chain disruptions, especially in

light of Russia's invasion of Ukraine. For example, discuss whether you have or expect to: suspend the production, purchase, sale or maintenance of certain items due to a lack of raw materials, parts, or equipment; inventory shortages; closed factories or stores; reduced headcount; or delayed projects; experience labor shortages that impact your business; experience cybersecurity attacks in your supply chain; experience higher costs due to constrained capacity or increased commodity prices or challenges sourcing materials (e.g., nickel, palladium, neon, cobalt,

iron, platinum or other raw material sourced from Russia, Belarus, or Ukraine); experience surges or declines in consumer demand for which you are unable to adequately adjust your supply; be unable to supply products at competitive prices or at all due to export restrictions, sanctions, tariffs, trade barriers, or political or trade tensions among countries or the ongoing invasion; or be exposed to supply chain risk in light of Russia's invasion of Ukraine and/or related geopolitical tension or have sought, made or announced plans to de-globalize your supply chain.

Explain whether and how you have undertaken efforts to mitigate the impact and where possible quantify the impact to your business.

3. Please disclose whether you are subject to material cybersecurity risks in your supply chain based on third-party products, software, or services used in your products, services, or business and how a cybersecurity incident in your supply chain could impact your business. Discuss the measures you have taken to mitigate these risks. To the extent material, disclose any new or heightened risk of potential cyberattacks by state actors or others since Russia's invasion of Ukraine and whether you have taken actions to mitigate such potential risks.

4. Please describe the extent and nature of the role of the board of directors in overseeing cybersecurity risks, including in connection with the company's supply chain/suppliers/service providers.

5. Please discuss whether supply chain disruptions materially affect your outlook or business goals. Specify whether these challenges have materially impacted your results of operations or capital resources and quantify, to the extent possible, how your sales, profits, and/or liquidity have been impacted. Also discuss known trends or uncertainties resulting from mitigation efforts undertaken, if any. Explain whether any mitigation efforts introduce new material risks, including those related to product quality, reliability, or regulatory approval of products.

6. Please discuss whether recent increased cases of COVID-19 and/or shutdowns related to additional or increased outbreaks have had a material impact on your operations, supply chain, liquidity or capital resources.

We remind you that the company and its management are responsible for the accuracy
